Federal Bureau of Investigation

United States Department of Justice
San Francisco, California

July 10, 1942

Director
Federal Bureau of Investigation
Washington, D. C.

Re: [REDACTED]

PERSONAL AND ~~CONFIDENTIAL~~

Dear Sir: Attention: Assistant Director S. J. Tracy

Enclosed are telegraphic messages numbered 1 to 3 inclusive, some of which are in plain language and some in code, which are to and/or from [REDACTED].

With regard to those in plain language, it is requested that this office be furnished with two copies on onion skin paper of complete translations and that a separate sheet be used for each message if practicable. It will be noted that they are numbered chronologically. It is requested that the translations be numbered to conform with the message enclosed herewith.

With regard to those in code, it is requested that the Bureau attempt to furnish decodes to this office in the same manner as outlined above with regard to those in plain language. In addition, in the event it is found such messages cannot be decoded, it is requested that the messages be copied as they are and that copies of the messages in code be returned as outlined above. This additional request is made at this time for the reason that the Bureau may be in a position at a later date to decode such messages and furnish plain language text to this office. At such time the coded copies returned to this office will be destroyed and the plain language messages inserted numerically in our message file. In this way we will be able to examine a complete file of these messages over a long period of time and when considered with other information already available, develop a more accurate picture of the espionage activities, if any exist, with regard to these persons in this Field Division.

If any plain language messages in the English language are included in the enclosures, it is requested this office simply be supplied with two copies numbered to conform with the enclosures.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage in this country, in supplying various Field Offices with investigative material, and possibly in connection with certain other activities.

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 7 to --, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of [REDACTED]

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and ~~Confidential~~ cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers --.

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in ~~confidential~~ files in this office. The attached copy is for the Bureau's information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Offices with investigative material, and possibly in other ways not now apparent.

Charge to the account of

The image shows a close-up of a vintage document, possibly a ledger or account book, with a grid of columns and rows. The document is aged and has a dark, possibly leather, cover visible around the edges. The grid is filled with handwritten entries, which are mostly illegible due to the image quality. The document is oriented vertically, and the grid is composed of several columns and rows, with some cells containing numbers and others containing text. The overall appearance is that of a historical record or financial document.

Attn: Assistant Director STANLEY J. TRACY

Re: [REDACTED]

b7D
b7E

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers [REDACTED] to [REDACTED], inclusive. These are in code, a foreign language, or ¹⁰English and are to and/or from, or are related to the activities of [REDACTED]

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and ~~Confidential~~ cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code bear our numbers [REDACTED].

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and retained in ~~confidential~~ files in this office. The attached copy is for the Bureau's information.

It is my thought that the above plan will not only supply this office with a complete message file regarding these persons as mentioned above but that the originals retained in the proper Bureau files will, when correlated with other information already there, be of considerable value to the Bureau in combatting espionage, in supplying various Field Office with investigative material, and possibly in other ways not now apparent.
